DESCRIPTION: Plastic and metal toy piano.

CHILDREN AND PLAY: Your child has probably already discovered that cans, pots, blocks and other items can be banged on the floor or against each other to beat out a rhythm. Delight in your child’s attempts to make music, and identify sounds.

SKILL DEVELOPMENT: Remember that this is a toy and should be used as such. Don’t push or you can kill a desire to make music. Comment on the high and low and in-between sounds, and your child can have music wherever he goes.

CARE: As a courtesy to others, please return clean and intact.
